

The figure consists of a 10x10 grid of colored squares. The colors are blue, purple, and orange. The pattern repeats every 5 columns. The first column is blue, the second is orange, the third is blue, the fourth is purple, and the fifth is orange. This pattern repeats across all 10 columns. Overlaid on this grid are black symbols: asterisks (*) and crosses (X). The symbols follow a specific rule: they appear in the first four columns (blue and orange) and the last two columns (purple and orange). In the first four columns, symbols are placed in the following positions: (1,1), (2,1), (3,1), (4,1), (1,2), (2,2), (3,2), (4,2), (1,3), (2,3), (3,3), (4,3), (1,4), (2,4), (3,4), (4,4). In the last two columns (purple and orange), symbols are placed in the following positions: (1,9), (2,9), (3,9), (4,9), (1,10), (2,10), (3,10), (4,10).
