NeuN+ SCZ−DEG GSEA (GO BP): NES > 0
positive regulation of miRNA metabolic process
regulation of miRNA metabolic process
regulation of miRNA transcription
positive regulation of miRNA metabolic process
cellular response to zinc ion
cellular response to zinc ion
positive regulation of miRNA transcription
miRNA metabolic process
miRNA transcription
cellular response to copper ion
Schwann cell development
peripheral nervous system axon ensheathment
Schwann cell development
Schwann cell differentiation
response to mechanical stimulus
myelination in peripheral nervous system
glial cell development
collagen fibril organization
